The packers reply was:

"Your letter of Aug. 29 has been received and in reply thereto, have to say that considering the present condition of our plants, and the results of past conferences, we can see no possible benefit that can follow any further conference. Therefore we respectfully decline your request."

This is taken to mean that there is nothing left for the strikers but unconditional surrender.

The prompt refusal of the packers to have any dealings with President Donnelly leaves the men more disconsolate than ever and the looked for break in the union ranks is now believed to be close at hand.
